

1pcs Temp Measuring Interface BGA Machine Weighing 65KG for Accurate Soldering Results

Our Product Introduction

for more products please visit us on bgaxraymachine.com

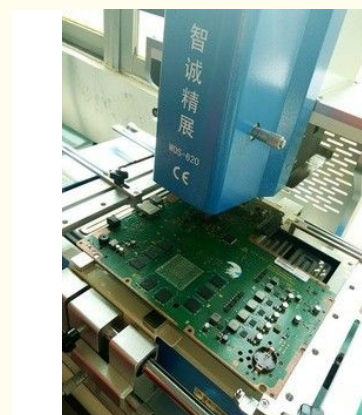

Basic Information

- Place of Origin: China
- Brand Name: WDS
- Certification: CE
- Model Number: WDS-800
- Minimum Order Quantity: 1 UNIT
- Packaging Details: Wooden case
- Delivery Time: 8-15 working days
- Payment Terms: T/T, Western Union, MoneyGram
- Supply Ability: 150 UNITS PER MONTH

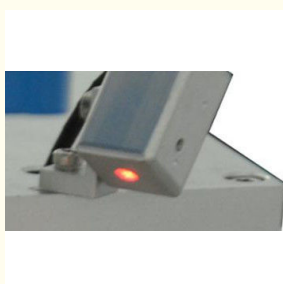

Product Specification

- Application: Laptop Playstation BGA Chip Repair
- Mini Pcb Size: W10*D10mm
- Voltage: 110/220V
- Product Category: Semi Automatic BGA Rework Station
- Max Pcb Size: W410*D480mm
- Locating Way: V Shape Slot,PCB Support Jigs Can Adjust,laser Light Do Fast Centering And Position
- Characteristic: X/Y Automatically Controlled
- Overall Dimension: L650×W630×H850mm
- Highlight: semi automatic laser bga rework station

Product Description

Product Description:

With its applicability to a range of chip sizes, from a minimum of 1*1mm to a maximum of 70*70mm, this BGA rework station is versatile and efficient. The vacuum nozzle ensures precise and accurate placement of the chip for optimal results. The vacuum pick feature of the BGA rework station allows for easy and safe handling of the delicate chips, preventing any damage or mishandling during the repair process. This makes it a valuable asset to any industry where BGA chip repair is required. Whether you are repairing motherboards in a laptop or Playstation, the Advanced Technology Semi Automatic BGA Rework Station is the tool for you. Its advanced technology, combined with its user-friendly features, make it a must-have for any electronics industry.

Features:

Product Name: Semi Automatic BGA Rework Station
Electrical material: Driving motor+PLC smart temp.controller+color touch screen
Machine Dimension: L650*W630*H850mm
Characteristic: X/Y Automatically Controlled
Temp Measuring Interface: 1pcs
Total power: Max 5300W
Features:
Vacuum pick for easy component removal
Reballing capability for precise ball placement
Soldering station for efficient rework

Technical Parameters:

Product Name:	Advanced Technology Semi Automatic BGA Rework Station for Electronics Industry
Product Category:	Semi Automatic BGA Rework Station
Use:	Motherboard repair, chip repair
Max PCB Size:	W410*D480mm
Mini PCB Size:	W10*D10mm
PCB size:	Max 410×380mm Min 10×10 mm
Temperature controlling:	(high precision K-sensor)(Closed Loop),independent temp.controller,the precision can reach ±1
Application:	Laptop Playstation BGA Chip Repair
Overall dimension:	L650×W630×H850mm
Total power:	Max 5300W

Applications:

The WDS-800 Semi Automatic BGA Rework Station is perfect for repairing BGA chips in laptops, Playstations, and other electronic devices. The product comes with a vacuum pick that ensures precision and accuracy during repairs. The product is ideal for professionals who work in the industry and require a reliable tool to repair PCBs. The product is suitable for use in various scenarios such as electronic repair shops, factories, and production lines.

The WDS-800 Semi Automatic BGA Rework Station is made of high-quality electrical materials such as driving motors, PLC smart temperature controllers, and color touch screens. The product is white and blue in color and has a voltage of 110/220V. The product comes with a temp measuring interface that ensures accurate temperature control during repairs.

The WDS-800 Semi Automatic BGA Rework Station is a reliable product that is in high demand. The product has a supply ability of 150 units per month and has a delivery time of 8-15 working days. The product is packaged in a wooden case for safe and secure transportation.

In summary, the WDS-800 Semi Automatic BGA Rework Station is a high-quality product that is perfect for repairing BGA chips in laptops, Playstations, and other electronic devices. The product is suitable for professionals who work in the industry and require a reliable tool to repair PCBs. The product comes with a vacuum pick that ensures precision and accuracy during repairs. The product is made of high-quality electrical materials and has a voltage of 110/220V. The product has a supply ability of 150 units per month and has a delivery time of 8-15 working days.

Support and Services:

The Semi Automatic BGA Rework Station provides high precision and efficient reworking of Ball Grid Array (BGA) components. The

product features:

High-definition optical alignment for accurate placement and alignment of components

Advanced temperature control system to prevent damage to components

Powerful heating system for quick and even heating of components

User-friendly interface for easy operation and control

Compatibility with a wide range of BGA components and PCB sizes

Our technical support team is available to assist with any product inquiries, troubleshooting, and maintenance needs. We also offer training services to ensure proper and safe operation of the Semi Automatic BGA Rework Station.

Additionally, we provide calibration and repair services to ensure the product remains in optimal condition and maintains its performance over time.

Packing and Shipping:

Product Packaging:

1 semi automatic BGA rework station

1 power cord

1 user manual

Shipping:

Shipping method: Standard ground

Estimated delivery time: 5-7 business days

FAQ:

Q: What is the brand name of the semi automatic BGA rework station?

A: The brand name of the product is WDS.

Q: What is the model number of the semi automatic BGA rework station?

A: The model number of the product is WDS-800.

Q: What is the certification of the semi automatic BGA rework station?

A: The product is certified with CE.

Q: What is the place of origin of the semi automatic BGA rework station?

A: The product is made in China.

Q: What is the minimum order quantity for the semi automatic BGA rework station?

A: The minimum order quantity for the product is 1 UNIT.

Q: What are the payment terms for the semi automatic BGA rework station?

A: The payment terms for the product are T/T, Western Union, and MoneyGram.

Q: What is the supply ability of the semi automatic BGA rework station?

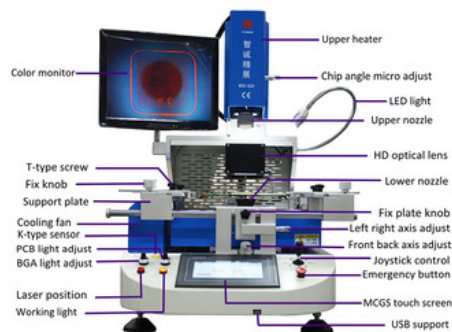

A: The supply ability of the product is 150 UNITS PER MONTH.

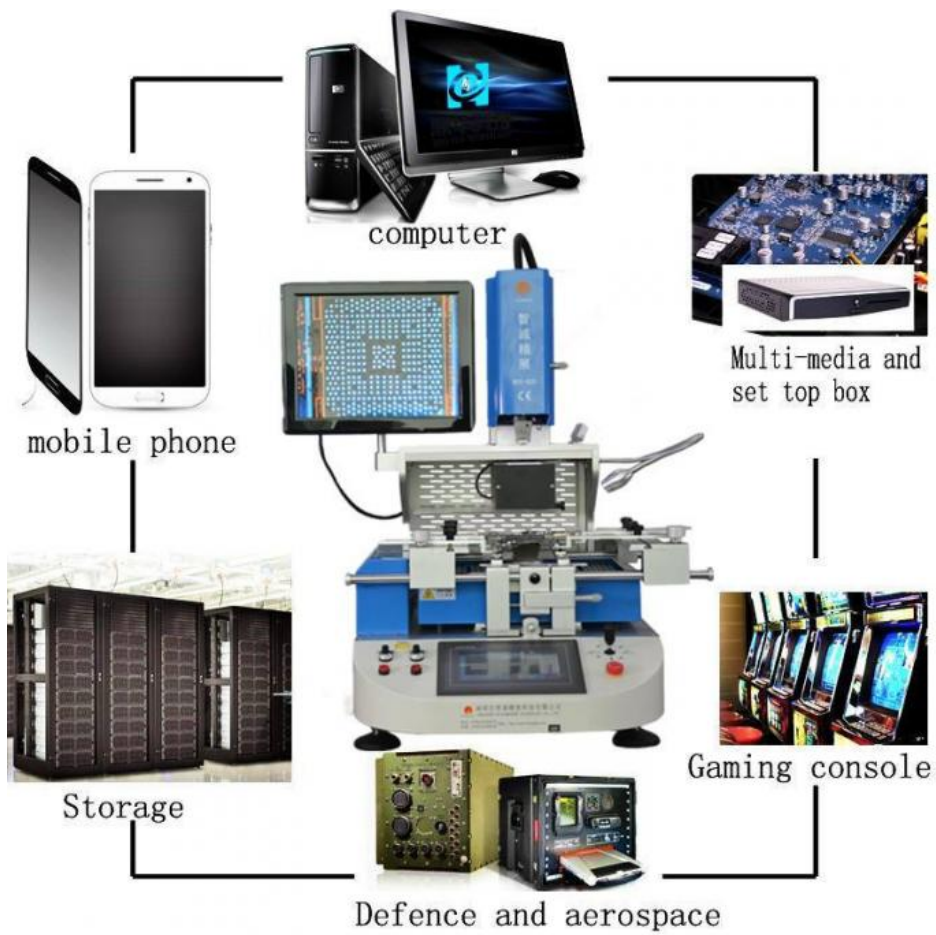

Q: What is the delivery time for the semi automatic BGA rework station?

A: The delivery time for the product is 8-15 working days.

Q: What are the packaging details for the semi automatic BGA rework station?

A: The product is packaged in a wooden case.
