

X/Y Control Semi Automatic BGA Rework Station for Accurate Repairs

Our Product Introduction

for more products please visit us on bgaxraymachine.com

Basic Information

- Place of Origin: China
- Brand Name: WDS
- Certification: CE
- Model Number: WDS-800
- Minimum Order Quantity: 1 UNIT
- Packaging Details: Wooden case
- Delivery Time: 8-15 working days
- Payment Terms: T/T, Western Union, MoneyGram
- Supply Ability: 150 UNITS PER MONTH

Product Specification

- Electrical Material: Driving Motor+PLC Smart
Temp.controller+color Touch Screen
- Applicable Chips: Max 70*70mm Min 1*1 Mm
- Voltage: 110/220V
- Product Category: Semi Automatic BGA Rework Station
- Characteristic: X/Y Automatically Controlled
- Use: Motherboard Repair
- Application: Laptop Playstation BGA Chip Repair
- Power Supply: AC 220V±10% 50/60Hz
- Highlight: **semi automatic laser bga rework station**

Product Description

Product Description:

Operating at a voltage of 110/220V, the Semi Automatic BGA Rework Station has an overall dimension of L650×W630×H850mm. It is designed to provide accurate and efficient repairs, making it a must-have for any electronics repair workshop.

The Semi Automatic BGA Rework Station is specifically designed for BGA chip repair, making it the perfect choice for professionals looking for an all-in-one solution for their electronics repair needs.

The heater power of the Semi Automatic BGA Rework Station is exceptional, with an upper temperature zone of 1200W, second temperature zone of 1200W, and an IR temperature zone of 2700W. This ensures that the product can handle even the most demanding soldering and desoldering jobs with ease.

With its compact design and advanced features, the Semi Automatic BGA Rework Station is the ideal choice for anyone looking to repair BGA chips with precision and efficiency.

Features:

Product Name: Semi Automatic BGA Rework Station

Product Category: Semi Automatic BGA Rework Station

Temperature controlling:

High precision K-sensor

Closed Loop

Independent temp.controller

The precision can reach $\pm 1^{\circ}\text{C}$

Machine Dimension: L650*W630*H850mm

Electrical material:

Driving motor

PLC smart temp.controller

Color touch screen

Power supply: AC 220V \pm 10% 50/60Hz

Keywords: soldering station, pcb repair, WDS620

Technical Parameters:

Heater power:	Upper temp.zone 1200W,second temp.zone 1200W,IR temp.zone 2700W
Product Category:	Semi Automatic BGA Rework Station
Locating way:	V shape slot,PCB support jigs can adjust,laser light do fast centering and position
Placement Mode:	Semi Automatic
Characteristic:	X/Y Automatically Controlled
Product Name:	Advanced Technology Semi Automatic BGA Rework Station for Electronics Industry
Application:	Laptop Playstation BGA Chip Repair
Max Pcb Size:	W410*D480mm
Use:	Motherboard Repair
Temp Measuring Interface:	1pcs
Accessories:	desoldering station, Vacuum nozzle, BGA

Applications:

One of the key features of the WDS-800 is its high precision temperature controlling, which is achieved through the use of a closed loop system and an independent temperature controller. This allows the precision of the temperature control to reach $\pm 1^{\circ}\text{C}$, ensuring that your soldering work is carried out with the utmost accuracy and consistency.

The WDS-800 is also capable of handling PCBs up to W410*D480mm in size, making it suitable for a wide range of different applications. Whether you're working on small-scale electronics or larger projects, this machine has the capability to handle your needs. In addition to its temperature control and PCB handling capabilities, the WDS-800 also features a range of other useful functions and features. These include a Vacuum pick system, which allows you to easily and quickly pick up and place components, as well as a range of different settings and controls to help you achieve the perfect soldering results every time.

If you're looking for a high-quality and reliable soldering equipment for your electronics work, then the WDS-800 Semi Automatic BGA Rework Station is an excellent choice. With its high precision temperature control, large PCB handling capabilities, and range of useful features and functions, this machine is sure to meet all of your needs and exceed your expectations.

Ordering the WDS-800 is easy - with a minimum order quantity of just 1 unit and a range of payment options including T/T, Western Union, and MoneyGram, you can get started with this powerful and versatile machine right away. And with a supply ability of up to 150 units per month and a delivery time of just 8-15 working days, you can be sure that you'll have your new WDS-800 in your hands and ready to use in no time at all.

The WDS-800 comes in a sturdy and secure wooden case for safe and easy shipping, and its white and blue color scheme is both stylish and functional. So why wait? Order your WDS-800 Semi Automatic BGA Rework Station today and take your soldering work to the next level!

Support and Services:

The Semi Automatic BGA Rework Station is a high-quality product designed to meet the demands of modern BGA rework applications. The machine features a user-friendly interface that allows for easy operation and precise control over the rework process. Our technical support team is available to assist with any questions or issues that may arise during the setup or operation of the machine.

In addition to technical support, we also offer a range of services to ensure that your Semi Automatic BGA Rework Station is always performing at its best. These services include regular maintenance and calibration, as well as repair and replacement of any damaged or worn parts.

Our goal is to provide you with the tools and support necessary to achieve maximum efficiency and productivity in your BGA rework processes. Please do not hesitate to contact us for any assistance or information regarding the Semi Automatic BGA Rework Station.

Packing and Shipping:

Product Packaging:

The semi automatic BGA rework station will be packed in a sturdy cardboard box to ensure safe transportation.

The product will be wrapped in bubble wrap and foam for added protection.

The package will include the BGA rework station unit, power cord, user manual, and a set of nozzles.

Shipping:

The product will be shipped via a trusted courier service.

Shipping will be done within 2-3 business days after the order is confirmed.

Customers will be provided with a tracking number to monitor the progress of their shipment.

Shipping time will vary depending on the destination, but it usually takes between 5-10 business days.

FAQ:

Q: What is the brand of this product?

A: The brand name of this product is WDS.

Q: What is the model number of this product?

A: The model number of this product is WDS-800.

Q: What certifications does this product have?

A: This product has CE certification.

Q: Where is this product made?

A: This product is made in China.

Q: What are the payment terms for this product?

A: The payment terms for this product are T/T, Western Union, and MoneyGram.

Q: What is the minimum order quantity for this product?

A: The minimum order quantity for this product is 1 unit.

Q: What is the supply ability of this product?

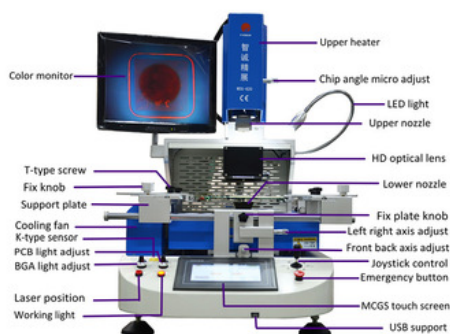

A: The supply ability of this product is 150 units per month.

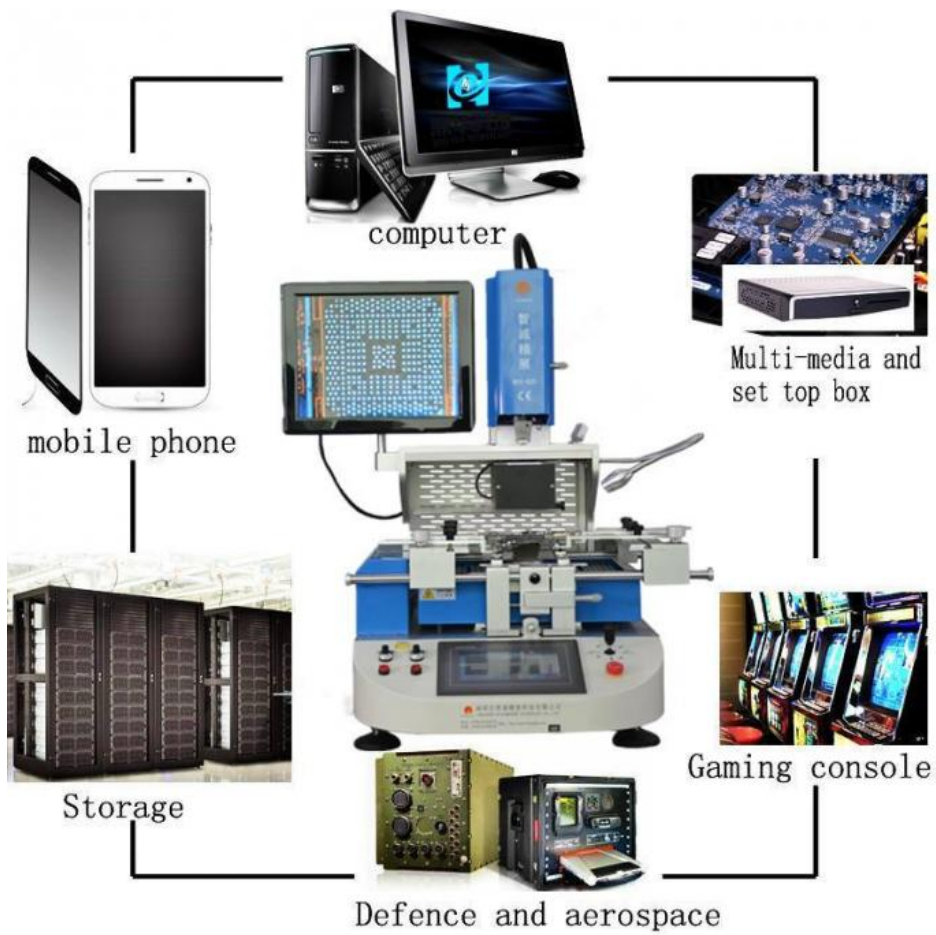

Q: What is the delivery time for this product?

A: The delivery time for this product is 8-15 working days.

Q: How is this product packaged?

A: This product is packaged in a wooden case.
