

Motherboard Repair Soldering Equipment with 1pcs Temp Measuring Interface

Our Product Introduction

for more products please visit us on bgaxraymachine.com

Basic Information

- Place of Origin: China
- Brand Name: WDS
- Certification: CE
- Model Number: WDS-800
- Minimum Order Quantity: 1 UNIT
- Packaging Details: Wooden case
- Delivery Time: 8-15 working days
- Payment Terms: T/T, Western Union, MoneyGram
- Supply Ability: 150 UNITS PER MONTH

Product Specification

- Max Pcb Size: W410*D480mm
- Temperature Controlling: (high Precision K-sensor)(Closed Loop),independent Temp.controller,the Precision Can Reach ± 1
- Voltage: 110/220V
- Color: White&Blue
- Weight Of Machine: 60KG
- Power Supply: AC 220V $\pm 10\%$ 50/60Hz
- Machine Weight: 65KG
- Locating Way: V Shape Slot,PCB Support Jigs Can Adjust,laser Light Do Fast Centering And Position
- Highlight: **Motherboard Repair BGA Soldering Machine, high precision BGA Soldering Machine,**

Product Description

Product Description:

As a Semi Automatic BGA Rework Station, this product is designed to make the repair process as simple as possible. This BGA rework station is perfect for anyone who wants to get the job done quickly and efficiently. The BGA rework station is easy to use and requires minimal training. This makes it an ideal choice for anyone who needs to repair motherboards.

The BGA rework station is designed for use in the repair of motherboards. It is perfect for anyone who needs to repair motherboards quickly and efficiently. The BGA rework station is designed to handle the toughest jobs and is built to last. It is made from high-quality materials and is designed to withstand the rigors of daily use.

The BGA rework station is a must-have for anyone who needs to repair motherboards. It is designed to be easy to use and requires minimal training. This makes it an ideal choice for anyone who needs to repair motherboards on a regular basis. The BGA rework station is also lightweight, weighing only 60KG. This makes it easy to move around and use in different locations.

The BGA rework station has an overall dimension of L650×W630×H850mm. This makes it easy to use in a variety of different workspaces. The BGA rework station is also designed to be easy to clean and maintain. This makes it an ideal choice for anyone who needs to use it on a regular basis.

In conclusion, the Semi Automatic BGA Rework Station is a top-of-the-line piece of soldering equipment that is perfect for anyone who needs to repair motherboards. This BGA rework station is designed to make the process of repairing motherboards as easy and efficient as possible. With its lightweight design, powerful voltage, and overall dimensions, this BGA rework station is the perfect choice for anyone who needs to repair motherboards on a regular basis.

Features:

Product Name: Semi Automatic BGA Rework Station

Overall dimension: L650×W630×H850mm

Application: Laptop Playstation BGA Chip Repair

Total power: Max 5300W

Heater power: Upper temp.zone 1200W,second temp.zone 1200W,IR temp.zone 2700W

Placement Mode: Semi Automatic

Vacuum nozzle for easy BGA removal

Technical Parameters:

Product Name	Advanced Technology Semi Automatic BGA Rework Station for Electronics Industry
Product Category	Semi Automatic BGA Rework Station
Heater Power	Upper Temp. Zone 1200W, Second Temp. Zone 1200W, IR Temp. Zone 2700W
Overall Dimension	L650×W630×H850mm
Max PCB Size	W410*D480mm
Total Power	Max 5300W
Application	Laptop Playstation BGA Chip Repair
Power Supply	AC 220V±10% 50/60Hz
Weight of Machine	60KG
Characteristic	X/Y Automatically Controlled

Applications:

The Semi Automatic BGA Rework Station is designed for advanced technology, making it suitable for various product application occasions and scenarios. The placement mode is semi-automatic, and the max PCB size is W410*D480mm. The product is perfect for motherboard repair, soldering station, and vacuum pick. It can handle PCB sizes ranging from Max 410×380mm to Min 10×10 mm.

The electrical material used in making this product includes driving motor, PLC smart temp.controller, and color touch screen. These features are essential in ensuring the product functions optimally, making it a must-have for the electronics industry. Its semi-automatic placement mode makes it easy to use, and the color touch screen allows for easy operation.

The Semi Automatic BGA Rework Station is suitable for various product application occasions and scenarios, making it an essential tool in the electronics industry. It is designed to handle various PCB sizes, making it versatile and convenient to use. The product is perfect for repairing motherboards, soldering stations, and vacuum pick. If you are in the electronics industry, this is a product you must have in your arsenal.

Support and Services:

The Semi Automatic BGA Rework Station offers a range of technical support and services to ensure optimal performance and longevity of the product. Our team of experts are available to provide assistance with installation, calibration, and maintenance of the equipment. We also offer training and education services to ensure that users are able to operate the equipment effectively and efficiently, minimizing the risk of errors and downtime.

In addition, we provide a comprehensive warranty and repair service to ensure that any issues are resolved quickly and effectively, minimizing the impact on your productivity and business operations. Our commitment to customer satisfaction means that we are always available to answer any questions or concerns you may have about the Semi Automatic BGA Rework Station, and to provide ongoing technical support as needed.

Packing and Shipping:

Product Packaging:

Semi Automatic BGA Rework Station

Power cord

User manual

Soldering iron

Desoldering gun

Vacuum suction pen

Various nozzles for different sizes of BGA chips

Shipping:

Shipping method: UPS Ground

Shipping time: 3-5 business days

Shipping cost: free

Tracking number: provided

FAQ:

Q: What is the brand name of this BGA Rework Station?

A: The brand name of this BGA Rework Station is WDS.

2.

Q: What is the model number of this BGA Rework Station?

A: The model number of this BGA Rework Station is WDS-800.

3.

Q: Is this BGA Rework Station certified?

A: Yes, this BGA Rework Station is certified with CE.

4.

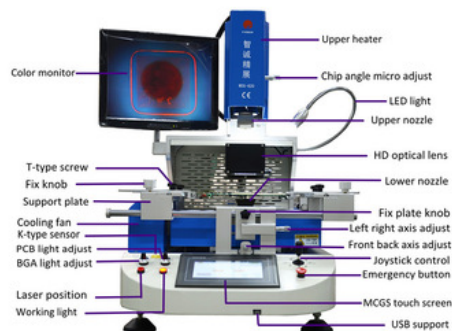

Q: Where is this BGA Rework Station manufactured?

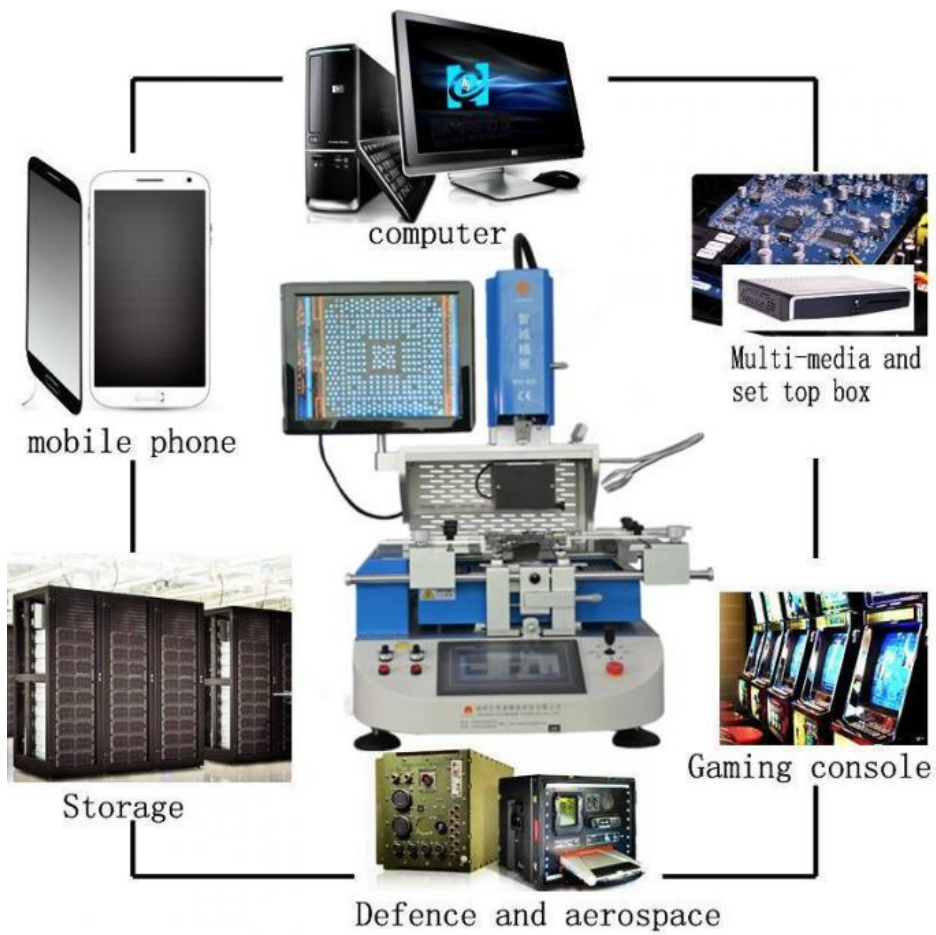

A: This BGA Rework Station is manufactured in China.

5.

Q: What are the payment terms and delivery time for this BGA Rework Station?

A: The payment terms for this BGA Rework Station are T/T, Western Union, and MoneyGram. The delivery time is 8-15 working days. The product is shipped in wooden case packaging.
