

65KG Machine Weight Semi Automatic BGA Rework Station with AC 220V±10% 50/60Hz Power Supply

Our Product Introduction

for more products please visit us on bgaxraymachine.com

Basic Information

- Place of Origin: China
- Brand Name: WDS
- Certification: CE
- Model Number: WDS-800
- Minimum Order Quantity: 1 UNIT
- Packaging Details: Wooden case
- Delivery Time: 8-15 working days
- Payment Terms: T/T, Western Union, MoneyGram
- Supply Ability: 150 UNITS PER MONTH

Product Specification

- Product Category: Semi Automatic BGA Rework Station
- Electrical Material: Driving Motor+PLC Smart
Temp.controller+color Touch Screen
- Temp Measuring Interface: 1pcs
- Voltage: 110/220V
- Max Pcb Size: W410*D480mm
- Machine Dimension: L650*W630*H850mm
- Machine Weight: 65KG
- Mini Pcb Size: W10*D10mm
- Highlight: semi automatic laser bga rework station

Product Description

Product Description:

One of the key features of this BGA rework station is its electrical material. It comes equipped with a driving motor, PLC smart temperature controller, and a color touch screen. This advanced technology ensures that the temperature is precisely controlled throughout the entire soldering process, reducing the risk of overheating and damage to the motherboard. The color touch screen also makes it easy to adjust the temperature and monitor the progress of the repair work.

The Semi Automatic BGA Rework Station is finished in a stylish white and blue color scheme, making it an attractive addition to any workshop or repair facility. Its compact size and light weight (65KG) make it easy to move around, while still being powerful enough to handle even the most complex jobs.

Another great feature of this BGA rework station is its ability to work with a wide range of mini PCB sizes. It can easily handle PCBs as small as W10*D10mm, making it versatile enough to handle a variety of repair jobs. This makes it an ideal choice for anyone involved in motherboard repair work, as it can handle a wide range of different motherboard sizes and configurations.

In summary, the Semi Automatic BGA Rework Station is an essential tool for anyone involved in soldering station and BGA repair work. Its advanced technology, stylish design, and compact size make it a great addition to any workshop or repair facility. With its precise temperature control, it is also ideal for repairing delicate motherboards and other sensitive electronic components. So if you're looking for a reliable and efficient BGA rework station, be sure to check out the Semi Automatic BGA Rework Station today!

Features:

Product Name: Advanced Technology Semi Automatic BGA Rework Station for Electronics Industry

Characteristic: X/Y Automatically Controlled

Color: White&Blue

Machine Weight: 65KG

Locating way: V shape slot, PCB support jigs can adjust, laser light do fast centering and position

Vacuum pick for easy component removal

Soldering station for precise soldering

Reballing capability for BGA components

Technical Parameters:

Applicable Chips:	Max 70*70mm Min 1*1 Mm
Voltage:	110/220V
Total power:	Max 5300W
Power supply:	AC 220V±10% 50/60Hz
Mini Pcb Size:	W10*D10mm
Characteristic:	X/Y Automatically Controlled
Machine Weight:	65KG
Temperature controlling:	(high precision K-sensor)(Closed Loop),independent temp.controller,the precision can reach ±1℃
Temp Measuring Interface:	1pcs
Product Category:	Semi Automatic BGA Rework Station

This soldering equipment comes with Vacuum nozzle and is suitable for use in the Industry.

Applications:

The WDS-800 is equipped with X/Y automatic controls which make the operation smooth and accurate. It is also capable of controlling the temperature of the soldering equipment with its temp measuring interface. The machine's weight of 65KG makes it portable and easy to use.

This semi-automatic BGA rework station is perfect for PCB repair of all kinds. It can handle a variety of BGA sizes and is ideal for repairing motherboards of various electronics devices. The WDS-800 is a must-have tool for electronic technicians and engineers who require precise and reliable soldering equipment.

The WDS-800 Semi Automatic BGA Rework Station has a supply ability of 150 units per month. It requires payment through T/T, Western Union, or MoneyGram. The delivery time is 8-15 working days, and the packaging details include a wooden case for safe transportation.

In conclusion, the WDS-800 Semi Automatic BGA Rework Station offers advanced technology and reliable performance in repairing motherboards and other electronics devices. It is suitable for both personal and industrial use and is a must-have tool for electronic technicians and engineers.

Support and Services:

The Semi Automatic BGA Rework Station product comes with a range of technical support and services to ensure optimal performance and functionality. These include:

Installation and setup assistance

Training and education on product use and maintenance

Troubleshooting and problem-solving assistance

Repair and maintenance services

Product upgrades and updates

Warranty and post-warranty support

Our team of experts is dedicated to providing excellent customer service and technical support to ensure your satisfaction with the Semi Automatic BGA Rework Station product.

Packing and Shipping:

Product Packaging:

- The Semi Automatic BGA Rework Station will be securely packaged to protect it during shipping.
- The packaging will include foam inserts to prevent any damage during transit.
- The product will be placed in a sturdy cardboard box with appropriate labels and markings for safe handling.

Shipping:

- The Semi Automatic BGA Rework Station will be shipped via a reputable courier service.
- The shipping cost will be calculated based on the destination and weight of the package.
- Tracking information will be provided to the customer once the product has been shipped.

FAQ:

What is the brand of this BGA Rework Station?

The brand of this BGA Rework Station is WDS.

2.

What is the model number of this BGA Rework Station?

The model number of this BGA Rework Station is WDS-800.

3.

Is this BGA Rework Station certified?

Yes, this BGA Rework Station is certified with CE.

4.

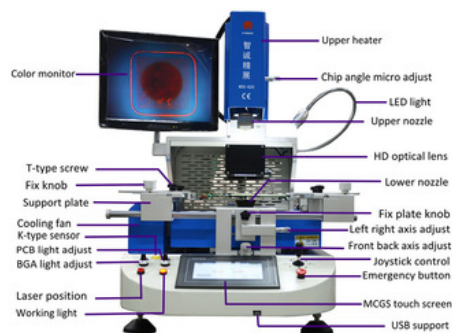

Where is this BGA Rework Station manufactured?

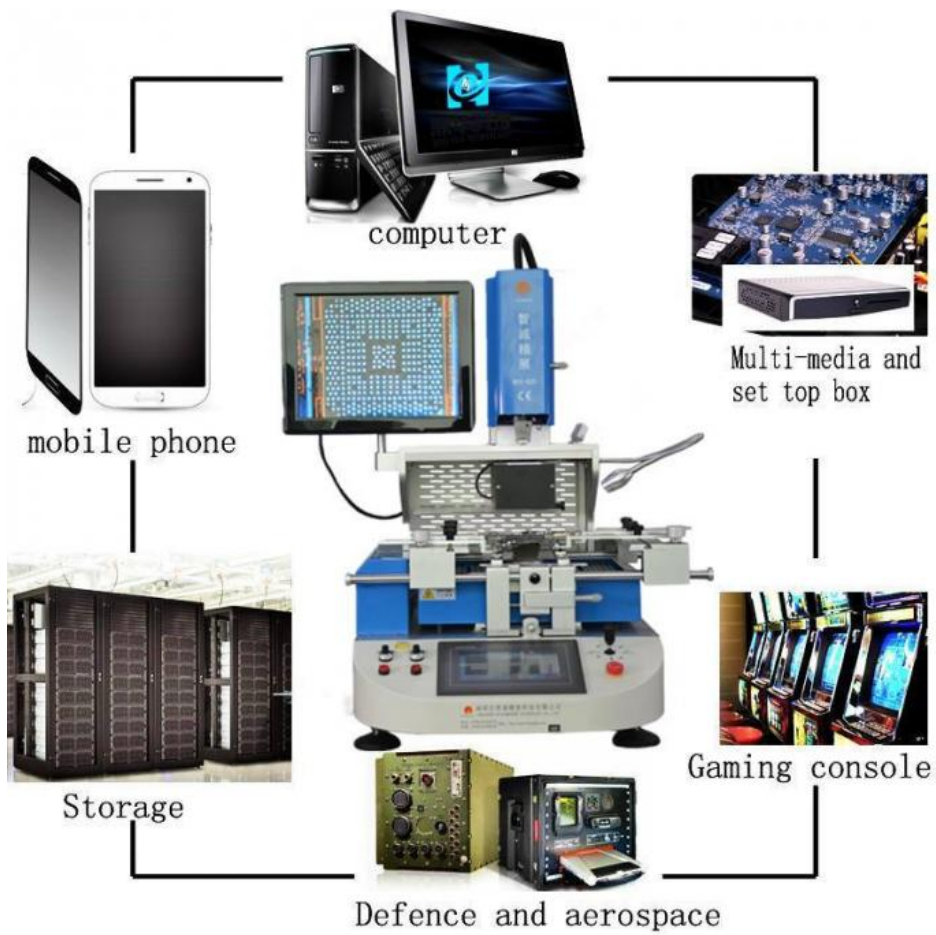

This BGA Rework Station is manufactured in China.

5.

What are the payment terms for purchasing this BGA Rework Station?

The payment terms for purchasing this BGA Rework Station are T/T, Western Union, and MoneyGram.
