

WDS580 Intelligent and Lightweight bga rework station With PLC Temperature Control

Our Product Introduction

for more products please visit us on bgaxraymachine.com

Basic Information

- Place of Origin: CHINA
- Brand Name: WDS
- Certification: CE
- Model Number: WDS580
- Minimum Order Quantity: 1 UNIT
- Packaging Details: Wooden case
- Delivery Time: 3-5 working days
- Payment Terms: T/T, Western Union, MoneyGram
- Supply Ability: 150 UNITS PER MONTH

Product Specification

- Temperature Control: PLC
- Power Consumption: 5200W
- Overall Dimension: 650*6500*610mm
- Application: BGA Rework And Repair
- Advantage: Low Weight
- Warranty: 1 Year
- Min Pcb Size: 10×10mm
- Weight: 45kg
- Highlight: 5200w bga rework station,
5200w smd rework station

Product Description

Product Description:

With its low weight, this BGA Rework Station is easy to move around and mount, making it ideal for use in a variety of settings. Its compact size means it can be used in smaller spaces and can accommodate PCBs with a minimum size of 10x10mm, making it perfect for a range of applications.

The Manual BGA Rework Station comes with infrared preheating, which ensures that your components are heated to the right temperature, and that your soldering is done correctly. This feature makes it ideal for use in a variety of industries, including electronics, automotive, and aerospace.

Another great feature of the Manual BGA Rework Station is its easy operation. The station is easy to set up and use, and can be operated by anyone with a basic understanding of soldering. This makes it perfect for use in small businesses or for DIY projects.

Despite its compact size and lightweight design, the Manual BGA Rework Station is a robust and durable piece of equipment. It weighs just 45kg, making it easy to move around and transport, but its heavy-duty construction means it can withstand even the toughest of working environments.

In summary, the Manual BGA Rework Station is the perfect solution for anyone looking for a reliable, easy-to-use, and versatile soldering station. Its infrared preheating feature ensures that your components are heated correctly, while its easy operation and low weight make it ideal for use in a variety of industries and applications. So why wait? Order your Manual BGA Rework Station today and take your soldering to the next level!

Features:

Product Name: Manual BGA Rework Station

Chip Size: Mini 1*1mm

Feature: Efficient

Weight: 45kg

Temperature Control: PLC

Advantage: Low Weight

Hot Air Solder: Yes

With Touch Screen: Yes

Accurate Temperature: Yes

Technical Parameters:

Tem Measuring Interface	1pcs
Application	BGA Rework And Repair
Power Consumption	5200W
Min Pcb Size	10×10mm
Advantage	Low Weight
Type	Soldering Station
Warranty	1 Year
Feature	Efficient
Overall Dimension	650*650*610mm
Chip Size	Mini 1*1mm
Desoldering	No
3 Heating Zone	Yes
Preheating Table	No

Applications:

The WDS580 BGA Rework Station is an ideal solution for heating and reworking small chip sizes of 1*1mm, which makes it perfect for use in small printed circuit board (PCB) rework applications. The machine's low weight makes it easy to transport and reposition in different locations, making it an ideal machine for technicians who need to move around frequently in their workspace.

The WDS580 BGA Rework Station is an ideal tool for repairing and reworking small PCBs. It is particularly useful for repairing surface mount components, such as BGAs and CSPs, which are commonly used in modern electronics. The machine's heating system is efficient and can be easily controlled, making it ideal for use in a wide range of rework scenarios. It also features a user-friendly interface that makes it easy to operate, even for beginners.

In summary, the WDS580 BGA Rework Station is an excellent solution for small PCB rework and repair applications. Its lightweight design makes it easy to transport, while its efficient heating system ensures that components are reworked quickly and effectively. Whether you are a professional technician or a hobbyist, the WDS580 BGA Rework Station is an ideal tool for all your rework needs.

Support and Services:

In addition to technical support, we also offer a range of services to help you get the most out of your Manual BGA Rework Station. Our experienced technicians can provide on-site installation and training services to help you get up and running quickly. We also offer calibration and maintenance services to ensure that your equipment is always performing at optimal levels. Our team is committed to providing you with the highest level of customer service and support, so you can have complete confidence in your purchase.

Packing and Shipping:

Product Packaging:

1 x Manual BGA Rework Station

1 x Hot Air Gun Handle

3 x Nozzle Attachments

1 x Power Cable

1 x User Manual

Shipping:

Shipping Method: Standard Shipping

Estimated Delivery Time: 5-7 business days

Tracking Information: Provided via email
