

WDS580 Efficient BGA Rework Station with Low Weight and AC Power Supply

Our Product Introduction

for more products please visit us on bgaxraymachine.com

Basic Information

- Place of Origin: CHINA
- Brand Name: WDS
- Certification: CE
- Model Number: WDS580
- Minimum Order Quantity: 1 UNIT
- Packaging Details: Wooden case
- Delivery Time: 3-5 working days
- Payment Terms: T/T, Western Union, MoneyGram
- Supply Ability: 150 UNITS PER MONTH

Product Specification

- Feature: Efficient
- Weight: 45kg
- Power Supply: AC 220V/110V
- Advantage: Low Weight
- Chip Size: Mini 1*1mm
- Temperature Control: PLC
- Min Pcb Size: 10×10mm
- Power Consumption: 5200W
- Highlight: 5200w bga rework station,
5200w smd rework station,
ac 220v bga rework station

Product Description

Product Description:

Designed to be efficient and user-friendly, this rework station is perfect for mounting BGA components onto small PCBs. With a power consumption of 5200W, you can trust that this station will get the job done quickly and effectively.

For your peace of mind, this Manual BGA Rework Station comes with a 1-year warranty, ensuring that you can rely on it for all your rework needs. So why wait? Order your Manual BGA Rework Station today and experience accurate temperature control and efficient rework for yourself!

Features:

Product Name: Manual BGA Rework Station

Weight: 45kg

Power Supply: AC 220V/110V

Feature: Efficient

Temperature Control: PLC

Chip Size: Mini 1*1mm

Infrared preheating

Accurate temperature

Desoldering

Technical Parameters:

Warranty	1 Year
Chip Size	Mini 1*1mm
Type	Soldering Station
Feature	Efficient
Min Pcb Size	10×10mm
Power Consumption	5200W
Weight	45kg
Advantage	Low Weight
Application	BGA Rework And Repair
Tem Measuring Interface	1pcs

Applications:

One of the main features of this product is its 3 heating zone system, which ensures even and precise heating of the chip, making it easier to repair and rework. This feature is particularly useful for small and delicate chips such as those found on mobile phones, laptops, and other electronic devices.

The WDS580 soldering station is perfect for a range of application occasions and scenarios. It can be used for repairing and reworking chips on a variety of devices, including motherboards, graphics cards, and game consoles. Its compact size and easy-to-use design make it an ideal choice for both professional repair technicians and DIY enthusiasts alike.

This soldering station is ideal for working with small PCB sizes, with a minimum size of 10×10mm, making it perfect for repairing mobile phone and laptop motherboards, as well as other small electronic devices. Its high power consumption also makes it ideal for larger PCBs and more complex repair tasks.

In summary, the WDS580 soldering station is a powerful and reliable tool for chip repair and BGA rework. Its 3 heating zone system ensures even and precise heating of the chip, making it easier to repair and rework. With its compact size and easy-to-use design, it is perfect for both professional repair technicians and DIY enthusiasts alike. Whether you are repairing a mobile phone motherboard or a graphics card, the WDS580 soldering station is the perfect tool for the job.

Support and Services:

The Manual BGA Rework Station is a high-performance device designed for the repair of BGA, CSP, QFP, PLCC and other surface-mounted electronic components. It comes with a variety of features to ensure optimal performance and ease of use, including:

Temperature control system with digital display

Adjustable air flow

High-precision K-type thermocouple sensor

Intelligent cooling system to prevent overheating

Automatic soldering and desoldering functions

To ensure that you get the most out of your Manual BGA Rework Station, we offer a range of technical support and services, including:

24/7 technical support hotline

On-site installation and training

Regular maintenance and calibration services

Repair and replacement of faulty components

Extended warranty options

Our team of experienced technicians are on hand to provide expert advice and assistance with any issues you may encounter while using your Manual BGA Rework Station. Contact us today to learn more about our technical support and services.

Packing and Shipping:

Product Packaging:

1 x Manual BGA Rework Station unit

1 x Power cord

1 x User manual

Shipping:

Shipping weight: 70 lbs.

Shipping dimensions: 71 x 71 x 77CM

Shipping carrier: FedEx
