

DS-3000 X-Ray Counting Machine with 99.99% Accuracy 17 Inches Screen and 800W Total Power for Manufacturing Plants

Our Product Introduction

for more products please visit us on bgaxraymachine.com

Basic Information

- Place of Origin: Guangdong, China
- Brand Name: wisdomshow
- Minimum Order Quantity: 1
- Price: \$17,200-17,800

Product Specification

- Weight: 730 Kg
- Power: 50-80KV
- Voltage: 220 V
- Tube Voltage: 50-80KV
- Tube Current: 0.2-0.6mA
- Maximum Tray Size: 17 Inches
- Pixel Matrix: 3072*3072 Pixels
- Image Size: 430*430 Mm
- Detector Size: 470*470*35 Mm
- Total Power: 800W
- Equipment Size: 878*1480*1895 Mm
- Supply Voltage: 220V 50-60HZ
- Load-bearing Capacity: 10KG
- Maximum Tray Thickness: 80mm
- Counting Accuracy: 99.99%

Product Description

DS-3000 X-Ray Counting Machine - 99.99% Accuracy for Manufacturing Plants

The DS-3000 X-Ray Offline Counting Machine is an automatic feeding system that has been market-proven for 8 years with mature technology and excellent customer feedback. This model requires no component binding or algorithm setup, offering a 1-year warranty at a competitive price point.

Advanced X-Ray Counting Technology

The DS-3200 model utilizes X-Ray perspective principles combined with proprietary AI-powered algorithm software. This system provides rapid, accurate tray object counting with automatic scan code upload capability, seamlessly integrating with MSE, ERP and other management systems.

Key Product Features

1. Eliminates need for unpacking and transferring trays compared to traditional counting machines
2. 17-inch ultra-clear flat panel detector provides fast, distortion-free imaging
3. Simultaneously counts 4pc 7-inch material trays or 13-15 inch material trays
4. Counting accuracy up to **99.99%**
5. Digital data output enables direct barcode sticker printing or database upload
6. Accommodates tray diameters from 7 to 15 inches
7. Integrated material picking and foolproof functions with automatic label printing

Equipment Advantages

Return on Investment

As the latest high-tech counting solution on the market, our X-RAY counting machine delivers counting speeds more than 10x faster than traditional methods with superior accuracy. The system enables intelligent management, reducing labor requirements by 8-10 personnel with typical ROI achieved within 12 months.

Technical Specifications

Model	DS-3200
X-ray source	Tube voltage: 50-80KV
	Tube current: 100-800UA
	Cooling method: Air-cooled
Radiation safety	<1μSV/H
Flat panel detector	Detector category: Amorphous silicon
	Pixel matrix: 3072*3072pixels
	Image size: 430*430mm
	Detector size: 470*470*35mm
Load-bearing platform	10KG
Detection size range	Maximum tray size: 17 inches
	Minimum tray size: Unlimited

	Maximum tray thickness: 80mm
Bar code recognition	Automatic
Equipment Specifications	Total power: 800W
	Dimensions: 908*1335*1968mm
	Weight: approx. 1000KG
	Supply voltage: 220V50-60Hz

Packaging & Shipping

1. Standard export wooden cases
2. Delivery within 2 workdays after payment confirmation
3. Shipping via TNT, DHL, FEDEX, air or sea
4. Loading port: Shenzhen or Hongkong

Our Service Commitment

1. **24/7 Support:** Technical assistance via email or phone
2. **Warranty:** 1 year free (other costs borne by buyer)
3. **Training:** Demo operation videos provided
4. **Documentation:** Comprehensive English user manual
5. **Pricing:** Competitive discounts for agencies
